11037 Frame Assembly with Steel Tubes

OPTIONAL FLAG POLE
FOR 3' X 5' FLAG

FLAG
NOT INCLUDED

ANCHOR LOAD GUIDE

CAUTION: Tension straps must be maintained tight and even for proper tensioning of the canopy fabric. The fabric must remain taut to avoid rain ponding.

*WIND SPEED - is the wind directly on the tent. The wind speed reported through the media is usually measured 33' above ground at a local airport weather station. Wind load on your tent may be effected considerably by topography, trees, buildings, fences and other adjacent roughness.

To increase anchorage and stability, guy ropes are recommended. Much of the anchor loading may be transferred from the post base to the guy anchors.

Guy ropes should be used in high wind areas.

CANOPY		PART	PART NO.	QTY
1 TOP		Top	#10977	1
		Quicklink	#6857	4
		Tension Strap	#15050	4
FRAME				
2 POST ASSEMBLY		Base	#10514	4
		Tube alum	#10591	4
