

ARMADILLO TRANSPORTS AND ERECTS EASILY.

- 1 Transport folded on truck.
- 2 Spread legs. Install anchors.
- 3 Pull erect with a small vehicle.
- 4 Secure guy lines.

Armadillo®

PORTABLE SHELTERS

WE MAKE MORE THAN ARMADILLOS!

HURRITENTS are instant tents! For telephone, hydro, construction, and exploration work, machinery maintenance or personal survival. Integral spring steel and fabric structure folds into a small circle 1/300th of erected volume. Available in sizes 10 to 22 feet long. Ask for Hurritent literature.

WARNER DOME TENTS featured at the Montreal Olympics. A new departure from geodesic domes, these solid, free form structures with their sweeping lines and pleasing space are our contribution to public exhibition architecture. Ask for C-series literature.

SPECIAL STRUCTURES

Warner Shelter Limited fabricates specially engineered shelters for supply anywhere in the world. Ask our engineering staff to solve your particular enclosure problems.

We enjoy the challenge!

THE Armadillo[®] HAS BEEN AROUND FOR 63 MILLION YEARS!

His survival has depended upon his mobility and protective exterior. That's why we've called our SR shelter the "Armadillo" — It's adaptable, it's mobile and it's tough.

The unique design of the Armadillo is engineered to provide economic shelter combining 3 essential features:

1. PORTABLE

There is no structure so portable at any price. And folding buildings half as portable cost twice the price. Installations which used to take 3 days, now take 3 hours. And you don't need a crane — or even a ladder — Armadillos are pulled erect and secured using a small vehicle and hand tools.

2. CLEAR WORK-SPACE

The Armadillo sets new standards for unrestricted working room. The high arched frame allows easy access and work on heavy equipment. And unlike steel structures, the Armadillo's cover lets you work in natural daylight.

3. ADAPTABLE

Armadillo can be installed on unprepared terrain; allowing entry of large, high vehicles. Its "accordion" principle also allows you to expose your work area for crane operations in a minute by simply folding back the Armadillo.

THE ARMADILLO is a heavy duty industrial shelter made of two basic components:

- Tubular Steel Ribs
- Rugged, Weather Resistant, Flame Retardant Fabric

ARMADILLO

- Admits high mobile equipment
- Erects over in-situ work
- Requires no crane
- Sets up on unprepared ground
- Can be heated
- Admits natural light and heat
- Disassembles for air transport

ARMADILLO SHELTERS can cover most equipment used in:

- Forestry
- Mining
- Construction
- Shipyards
- Quarries
- Railways
- Airfields
- Warehousing

THE ARMADILLO—

It's an Adaptable, Mobile & Tough Shelter.

SPECIFICATIONS

ERECT

FOLDED

GRID SCALED IN APPROXIMATE FIVE FOOT INCREMENTS. ALL DIMENSIONS IN CHARTS ARE APPROXIMATE.

MODEL NUMBER SR30

ERECT	Metric	English
Length	9 m	30 ft.
Width	7 m	23 ft.
Height	4.5 m	15 ft.

Guying Distance		
A to B	Not Applicable	
C to D	Not Applicable	

FOLDED	Metric	English
Length	6 m	20 ft.
Width	1.5 m	5 ft.
Height	40 cm	1.3 ft.

NOTE: Armadillo shelters break down to 6 m (20 ft.) sections for compact shipment.

Weight	350 kg.	750 lb.
--------	---------	---------

NOTE: Keep in mind equipment box dimensions. If in doubt, send us equipment specs. Correct Armadillo shelter recommendation will be sent by return mail.

MODEL NUMBER SR40

ERECT	Metric	English
Length	12 m	40 ft.
Width	8 m	26 ft.
Height	6 m	20 ft.

Guying Distance		
A to B	28 m	92 ft.
C to D	20 m	66 ft.

FOLDED	Metric	English
Length	7.5 m	24.5 ft.
Width	2 m	6 ft.
Height	50 cm	2 ft.

NOTE: Armadillo shelters break down to 6 m (20 ft.) sections for compact shipment.

Weight	576 kg.	1500 lb.
--------	---------	----------

MODEL NUMBER SR50

ERECT	Metric	English
Length	16 m	52 ft.
Width	10.5 m	34.5 ft.
Height	8 m	26 ft.

Guying Distance		
A to B	38 m	125 ft.
C to D	33 m	108 ft.

FOLDED	Metric	English
Length	9 m	30 ft.
Width	2 m	6 ft.
Height	1 m	3 ft.

NOTE: Armadillo shelters break down to 6 m (20 ft.) sections for compact shipment.

Weight	900 kg.	2000 lb.
--------	---------	----------

MODEL NUMBER SR60

ERECT	Metric	English
Length	18 m	60 ft.
Width	13 m	40 ft.
Height	9 m	30 ft.

Guying Distance		
A to B	42 m	132 ft.
C to D	34 m	112 ft.
